

CHURCH FINANCIAL Leadership Academy

Connecting all your church
financial literacy needs

Financial Literacy is key to maintaining the economic vitality and sustainability of congregations. The Church Financial Leadership Academy is a no cost, e-learning platform that provides financial literacy education in a convenient online format that's available anytime you're ready.

The self-directed video-based courses will help pastors:

- Answer questions you may have such as, “Should pastors know what people give?”
- Learn the best practices for stewardship, planned giving, and year-long stewardship efforts
- Learn about the changing landscape of religious giving
- Learn how to create a generous congregation

As a member of the Church Financial Leadership Academy, pastors will be able to create their own schedule of courses. You can also share the customized playlists with your stewardship team and your session!

Get started today! Use the QR code or visit Churchfla.com and use the registration code PCUSA.
