

Your resource for year-round stewardship

New resources have been added to the **Stewardship Navigator**, the Presbyterian Foundation's free online stewardship planning tool.

In today's ever-evolving culture, churches need creative and comprehensive approaches to stewardship. Successful stewardship programs are not simply one-time fall campaigns. They are year-round efforts that keep members engaged, inspired, and growing in generosity. The Stewardship Navigator was created to help congregations build those year-round stewardship programs with practical guidance, customizable resources, and planning tools.

New and refreshed resources are now available, including a robust collection of **stewardship sermons**, customizable campaign materials, communication resources, and practical templates designed to support churches of all sizes and contexts. Whether your congregation is looking for inspiration from the pulpit, ready-to-use communications, or a comprehensive stewardship strategy, the Stewardship Navigator offers resources you can tailor to fit your unique ministry.

With Stewardship Navigator, you'll find:

- Narrative Budget builder
- Year-round stewardship guidance and planning support
- **Stewardship sermons featuring biblical reflections and messages on generosity**
- **Customizable templates for letters, commitment cards, newsletters, and campaign communications**
- Stewardship campaign planning tools and timelines
- Resources available at no cost to your congregation
- Support from Presbyterian Foundation Ministry Relations Officers

"This tool is extremely easy to navigate. If someone is new to being a stewardship leader there is all the information they need and more to get started. This tool is awesome!" - Jamie Yearwood, Selwyn Presbyterian Church, Charlotte, NC

As you prepare for stewardship season and beyond, we invite you to explore what's new, revisit familiar resources, and discover tools that can strengthen your congregation's stewardship planning.

Visit StewardshipNavigator.com today to get started.
